## **REMARKS**

### **1. Status of Claims**

Claims 1-4 were pending in the Application. Applicant has amended claim 1 without prejudice or disclaimer and added new claims 5-12. Applicant respectfully requests entry of the above amendments and consideration of the enclosed remarks. Applicant respectfully submits that no new matter is added. Accordingly, claims 1-12 will remain pending in the application.

### **2. Claim Rejections**

In sections 2-5 of the Office Action, the Examiner rejected claims 1-4 under 35 U.S.C. 103(a) as allegedly rendered obvious by U.S. Patent No. 6,654,779 to Tsuei, et al. ("Tsuei '779") in view of Return Path.

Applicant respectfully traverses the rejection. Initially, Applicant submits that it has not been established that the cited Return Path reference is available as prior art. Furthermore, Applicant submits that the references are not properly combined and do not establish a prima facie obviousness rejection.

However, solely in order to expedite prosecution, Applicants have amended independent claims 1 and the rejection is moot.

With regard to independent claim 1, the claim recites:  
identifying one or more e-mail address change notification recipients using the subscribers email address book.

Dependent claims 2-4 are patentable over the cited references for at least the same reasons.

New claim 5-12 recite additional features and Applicant respectfully submits the claims are patentable over the cited references.

With regard to claim 5, the claim recites:

"sending a message including confirmation data relating to the forwarding of the received message."

With regard to claim 9, the claim recites:

"requesting permission to forward the received message from the sender."
